My name is Bárbara Lanzarote.

I am a freelance multidisciplinary artist, who is looking to work on projects requiring a 3D generalist skilled in concept art, character design, etc.

I can create both digital and classic art techniques, since I have experience working with a wide variety of artistic concepts. I like collaborating within a Team-environment, and welcome new challenges. I am creative, and therefore relish presenting stories in unique and interesting ways.

I look forward to offering my valued clients excellent skills, a great work ethic and satisfactory performance on every project.
