Job description

About the Position

As Junior Linux Server Admin (m/f/d), your job is to guarantee uninterrupted operations of our platform and support our team in the ongoing development of our games.

Please apply via e-mail with an informative CV and your salary expectations.

☐

About Us

Spiele-Palast GmbH successfully develops online card games for browsers and mobile devices.

We offer hundreds of thousands of active users a platform for daily exchange and playing cards together. Our goal is to become the best platform for card games from all over the world.

□

Job Site

10245 Berlin, Boxhagener Str. 106

Germany

□

Entry Date

immediately

□

Form of Employment

full time

□

What we Offer

  Work with a small, passionate team in the heart of Berlin.

  Enjoy a wide range of tasks and varied work.

  Be part of one of the most successful app studios in Germany.

  A relaxed working atmosphere, flat hierarchies and short decision-making processes help you to deliver the best possible results.

  We work with flex time.

  Drinks and a fruit basket are included free of charge.

□

Area of Responsibility

  As Server Admin you are responsible for keeping our server farm on AWS up to date with minimal downtimes.

  You are extending and segregating our servers on AWS as needed, most importantly EC2

and RDS machines with and without Terraform.

You are responsible for all the small and big tasks that pop up every day on the server side of things (SSL certificate updates, VPN configurations for internal usage, Samba server configurations, AWS Security Group (firewall) handling, AWS Lambda function maintaining (internal tools), AWS Route53 zone configuration, automation with Ansible, etc.).

You are responsible for setting up technical equipment in the office and for our team as well.

☐

Requirements

You have 1-3 years of experience with Linux (Ubuntu).

You have one year of experience with clouds like AWS, GCP or Azure or an Associate Certificate qualification in that area.

You have a very good command of English, as English is the team language.

☐

Nice to Have

You are able to automate tasks with Ansible and possibly with Terraform.

Experience with high-load systems is a plus.

Professional experience in the mobile or games industry.

Good German skills are an advantage.
