Job description

You're studying games engineering and are interested in pursuing a career in the games industry? HandyGames™ offers students the opportunity to become part of our team for one semester as part of a mandatory internship. You will have the chance to learn from experienced professionals while contributing to the successful development of our latest games!

You're looking for an internship where you can fully explore your passion for games? Then you've come to the right place!

JOB DESCRIPTION

As a member of one of our Scrum teams, you will not only contribute to the code implementation of our game ideas but also work as part of an interdisciplinary team of developers, artists, and designers to optimize performance, port to different platforms, and ensure the highest game quality. Within the game project, you will mainly work with the following programs:

- C# / C++
- Unity
- Unreal Engine
- Custom Engines

WHAT WE ARE LOOKING FOR

- You are passionate about games and want to deepen your knowledge of game development
- You are familiar with the relevant technologies and operating systems (iOS, Android)
- Ideally, you have already gained practical experience in 2D/3D graphics and animations
- You can quickly familiarize yourself with new projects and situations
- Your self-motivation is convincing, and you have a strong sense of responsibility and a clean and team-oriented way of working
- You have a very good command of written and spoken English

HANDYGAMES™ OFFERS YOU

- 40-hour week
- Flexible working hours
- Short and quick decision-making process due to flat hierarchies
- The opportunity to work with a team of experienced professionals
- Modern workplaces with state-of-the-art technology

On-site Amenities:

- Team restaurant
- In-house gym
-
