Job description

Level up!

Nintendo aims to deliver unique, intuitive entertainment experiences for everyone, manufacturing and marketing video game devices such as the Nintendo Switch™ family of systems, developing and operating applications for smart devices, and collaborating with partners on a range of other entertainment initiatives like visual content and theme parks.

At Nintendo, we bring together employees with a wide range of characteristics and work together towards a common goal – to put smiles on the faces of people all over the world.

Tasks

Games-Career.com is a service provided by:

- First-level user support: responding to user requests by tickets, telephone, email, MS Teams and/ or in-person
- Troubleshooting with users in compliance with service requirements and existing procedures
- Daily operation of IT production (backup, system monitoring)
- IT assets management (software update, workstation configuration, Proxy, etc.)
- Preparing workstations (unpacking, imaging, configuration, upgrade, etc.)
- Managing technical incidents with manufacturers (standard exchange, replacement of defective parts, etc.)
- Supporting network (patch, cabling, installation of switches, Wifi...) and configuring smartphones

Requirements

- Trained to Bac +2 level, beginner or with a first successful experience in an IT department
- Knowledge of the general operation of computer systems and workstations (MS Windows 11, Office 365, Exchange/Outlook, WSUS...) and remote support tools
- Knowledge of an IT infrastructure (AD, Exchange, TCP-IP,..)
- Service-minded and customer-oriented
- Ready to integrate into a team with a good ability to adapt and be autonomous
- Respectful of existing guidelines, procedures and hierarchy
- Professional English level
