Your mission

- You ensure that each release of our products meets high standards of functionality, performance, security and usability
- You develop and maintain a suite of tests and test plans for our products
- You test each release of our products using mainly manual testing
- You identify and document defects in an actionable and reproducible way
- You provide feedback on the general usability and quality of our new features

Your skills

- **We are looking for a Manual QA Tester! No automation experience required**
- You have at least 2 years of experience in either game development or enterprise software QA
- You gained first experience in game testing
- You have worked with bug tracking software (e.g. Jira) and test management tools (TestRail or similars)
- You are a structured and self-organized person learning fast
- You know how to handle complex tasks without losing your cool
- You look at the bigger picture, questioning existing methods and analyzing potential risks

Your Gameforge setting

- An international company awaits you! English is our company language, as employees from over 25 nations are part of our team
- The future's hybrid! Together with your manager and team, you can arrange how you split your time working from home or at the office
- Where colleagues become friends! Regular team events and an open company culture
- We put our complete trust in you! Through freedom to choose things like flexible assignment of working hours and personal responsibility for your own work
