Description

Type of employment: Freelance
Entry date: immediately
Place of work: Hannover, Remote

Hi. My name is Jarle.

I'm looking for Jobs as a Composer and/or Sound Designer vor Videogames.

Despite my young age, I had great musical education. The creation of high quality emotional Music became my second nature. Recently I completed my study on Game Sound Design at the Audiocation academy.

I love music and I love Videogames. I grew up with both and Game-music became a big part of my life. Especially storytelling and the art in game creation inspire me. I'm sure with my Sound we can make your product into an amazing work of art. I'm looking forward to hearing from you.
